

TREKKING

The Iron Way

Trekking from Pietra Ligure to Isallo on the ancient Iron Way.

Difficulty level: Low - average

Organised transfer by car or shuttle bus to Tovo San Giacomo, from where we start to climb along Maremola riverside. After Brighiera we reach the village of Magliolo where it is possible to stop for a rest and a light refreshment. From here we start again our walk and have the possibility to enjoy a wonderful scenery. When we reach Isallo, we stop for a fast lunch based on typical products at the Agriturismo Antica Ferriera. The agriturismo stands where there was an ancient ironworks that was active from 1730 to 1860. The iron was brought from Elba Island to this place through the same track. In Isallo there was plenty of water and coal, necessary for the manufacture.

In the afternoon we go back through the chestnut tree path and then through the same way. In Tovo San Giacomo it is possible to stop at the museum of the clock (unique in Italy).

Lunch in a typical local restaurant.

Trekking poles and shoes rental.

TREKKING

DAY OR NIGHT EXCURSION TO PIAN DELLE BOSSE

Easy walk with lunch or dinner (return at night with torches)
suitable for everybody.

Difficulty level: low – also for children.

From Giustenice: from the square of the Townhall we go by car to the Giustenice saddle until the end of the paved road. At this point we start the walk to Cascina Porro (697mt) at the base of Bric Aguzzo, we descend and cross the little river Rio Giustenice. From here we climb to Bric Pratello to the place where we reach the road to the mountain shelter. With children the distance is covered in 70 minutes.

From Castagnabanca: from the parking place of Castagnabanca we walk up along the trail no. 2 until we reach a little river (rio) with a wooden bridge (Ponte di Martinetto). From here after a short climb we arrive at the mountain shelter. With children the distance is covered in 40 minutes.

Possible at Emporio dello Sport (trekking poles, shoes and back pack).

TREKKING
